PROFESSIONAL EXPERIENCE

Full Stack Developer

Programa Salas Cuna — Provincia de Córdoba

September 2024 – Today

- Led the end-to-end design and development of a centralized web application for tracking and managing payments to 300+ entities, reducing daily manual workload by 3 hours.
- Automated administrative tasks, cutting manual processing time by up to 75%.
- Optimized the entity payment process, reducing processing times in the administration of 2,000+ annual case files.

Data analysis

Programa Salas Cuna — Provincia de Córdoba

September 2021 – August 2024

- Desarrollo de scripts de automatización con Google Apps Script (JavaScript) para procesos de carga, transformación y análisis de datos operacionales (ETL), eliminando tareas manuales repetitivas.
- Limpieza, normalización y estructuración de bases de datos en Sheets, procesos estandarizados de carga y validación de información.
- Automatización de flujos de recolección de datos mediante Google Forms integrados con Apps Script, centralizando y agilizando el análisis operacional del programa.
